

# Payroll and Real Time Information

## Payroll

'Do what you do best and outsource the rest ' - never truer than with payroll and RTI.

One of the benefits of using Hargreaves' payroll bureau is peace of mind that this complex area is being looked after professionally.

## Real Time Information (RTI)

Payroll has changed. Clients paying employees over the lower earnings limits have to use a payroll and RTI process, and submit the details online to HMRC 'on or before' (OOB rule) the payment is made. This is an important compliance area.

For 2016 onwards penalties will arise. This will punish any employers who miss the submissions deadlines. The idea is that your tax affairs will be linked to the tax credit system and indeed to Making Tax Digital (MTD) and traders quarterly returns.

We are equipped to deal with RTI and can perform everything for you seamlessly on-line.

What do you get?

- Payslips
- Deduction reports for NIC & PAYE
- Employee information securely maintained
- Summary of payments to make
- Online submission
- Quality outsourcing and no headaches
- A value price
- Archived & supported
